

Piling

Headquartered in Lake Oswego, OR, Westlake Timber Supply has strategically placed inventories placed across North America with the ability to deliver wherever and whenever material is needed.

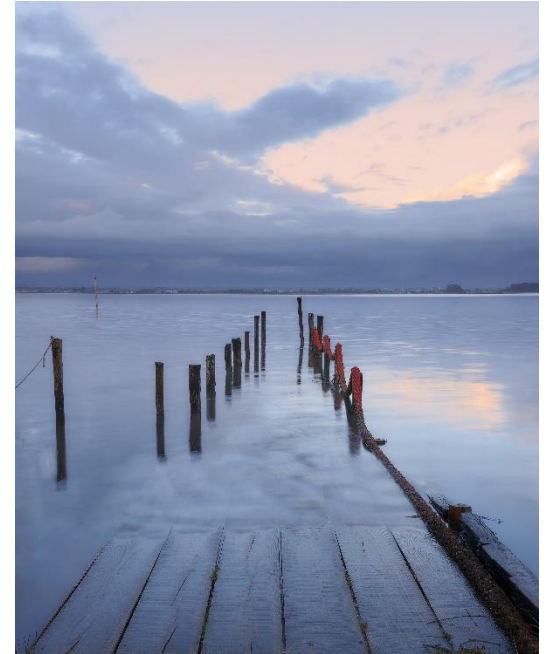

Westlake Timber Supply offers a full and complete service from start to finish, beginning with any custom specification ending with self-unloading trucks at the job site.

With orders ranging from pieces, units, truckload and railcars, for your convenience we offer prices for both customer pick-up and delivered to job site via truck or rail car.

With multiple species and preservatives available (including creosote, copper naphthenate, pentachlorophenol, CCA and ACZA), our inventory options range in size from:

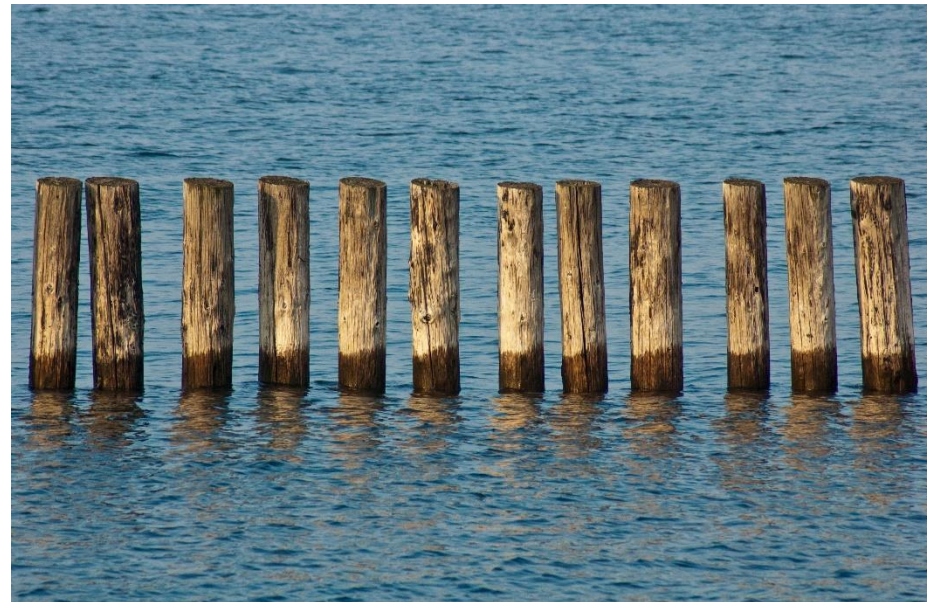

- 9"-12" Butt to 8'-55'+ in length.

*Poles taper approximately 1" in diameter per ten feet of length

WE OFFER:

- Truck & Rail car delivery
- Vendor managed inventory option
- Self-unloading trucking option
- Multiple preservatives
